

COP26 Training Pack – Supply Chain Sustainability School

We are pleased to provide you with this **COP26 Training Pack**, giving you direct links to FREE resources, e-learning modules and training sessions, to help your organisation and supply chain gain a better understanding of carbon and climate change.

Login to your School account to get started!

FREE Carbon Training Sessions

Tue 19 Oct, 13:00-14:00 [How to break the cycle of climate change leading to forced labour](#), external event hosted by Action Sustainability (the delivery team behind the School)

Mon 1 Nov, 14:00-15:00 [Introduction to Climate Change & Carbon – Lunch ‘n’ Learn](#)

Wed 3 Nov, 10:30-12:00 [Climate Change: How it impacts on everything – Business Bytes with the Environment Agency, Welsh Water, Network Rail and SSE](#)

Wed 3 Nov, 16:00-17:00 [A Focus on Scopes 1, 2 and 3 – Lunch ‘n’ Learn](#)

Thu 4 Nov, 14:00-15:00 [Carbon Reporting – Lunch ‘n’ Learn](#)

Fri 5 Nov, 14:00-15:00 [Net Zero & Carbon Offsetting – Lunch ‘n’ Learn](#)

Tue 9 Nov 14:00-15:00 [Best Practice and Low Carbon Fuels – Lunch ‘n’ Learn](#) with Speedy Services and WP Group

We also run a wide range of training specific to certain sectors, [click here](#) to view more.

FREE Carbon E-learning

[Introduction to Climate Change and Carbon](#) (Beginner) Discover what climate change is, its link with carbon and other gases that exacerbate it, as well as the effects that this leads to.

[Carbon Footprinting & Measurement](#) (Intermediate) Find out why and how you should measure your carbon footprint.

[Carbon Reporting](#) (Intermediate) Discover why it's important to report carbon and what exactly carbon reporting is, plus how you can start to report it.

[Carbon Reduction, Offsetting & Net Zero](#) (Intermediate) Uncover carbon reduction strategies including carbon offsets and net zero.

FREE Carbon Resources

[Energy Management Efficiency: Sustainability Short](#) (*Beginner*) A short, animated video about how to reduce energy on site.

[Science Based Targets: Sustainability Short](#) (*Beginner*) This animation looks at what SBTs are, why they're relevant to you, and how you can participate.

[Net Zero Policy Tracker 2021](#) (*Intermediate*) A report monitoring the difference new government policy and spending is making to the shortfall in action towards reaching UK climate change targets.

[Industrial Decarbonisation Strategy 2021](#) (*Intermediate*) The UK Government's Industrial Decarbonisation Strategy lays out long-term plans to switch away from fossil fuel combustion to low carbon alternatives in all UK industry sectors.

[WMO State of the Climate 2020](#) (*Advanced*) A report from the World Meteorological Association on changes in atmospheric GHGs, temperature, ice sheets, sea level and severe weather events in 2020 and their environmental and human impacts.

[Climate Policy Dashboard](#) (*Advanced*) The Climate Policy Dashboard tracks policy progress towards net zero against key recommendations made in the last 12 months by the Climate Change Committee (CCC).

[Greenhouse Gas Removal](#) (*Advanced*) This report identifies the range of available greenhouse gas removal methods, the factors that will affect their use and considers how they may be deployed together to meet climate targets in the UK and globally.

FREE Carbon Calculator

The Sustainability Tool's [carbon calculator](#) has been specifically designed for carbon management in the supply chain. The tool can support supply chain organisations with calculating their annual, organisational greenhouse gas emissions, and provide their clients with a view of emissions embedded in their supply chains.

Each month, the School hosts FREE **Climate Action Group & the Carbon Tool support sessions** demonstrating how to navigate the tool and submit your data. Register here:

[Wed 27 Oct, 15:00-16:00](#)

[Wed 24 Nov, 15:00-16:00](#)

[Wed 15 Dec, 15:00-16:00](#)

Creative assets *to share*

We have provided you with some creative assets to share on your B2B social media channels, to support you with engaging both your organisation and supply chains with the COP26 training sessions, e-learning and resources available for FREE on the School. [Download here.](#)
