

Environment Policy

In line with our Guiding Principle, Colas Rail will respect the environment. We will prevent or reduce the undesired effects of our business activities on the environment and I am committed to continual improvement of our environmental performance.

We will endeavour to:

- Drive continual improvement by ensuring effective management of our environmental impacts and maintaining Environmental Management Systems in compliance with EN ISO 14001 to enhance our environmental performance.
- Ensure all of our risks and opportunities for the environment are identified and adequately controlled.
- Protect the environment which will include preventing pollution throughout the life cycle of our services, improved efficiency in the use of natural resources, protection of biodiversity, habitats and ecosystems and climate change mitigation and adaptation.
- Develop objectives, supported by targets to manage our significant impacts
- Develop Environmental Performance Indicators to measure resource use, waste and emissions to promote environmental best practice.
- Train our staff to be aware of the impacts their activities can have upon the receiving environment and to know how to operate responsibly.
- Ensure our operations are carried out in accordance with our compliance obligations.
- Seek innovative solutions and take advantage of new technology by working in partnership with our customers and supply chain.
- Communicate this policy within the organisation and make it available to interested parties.
- Review and, if necessary, revise this policy on an annual basis.

The Chief Executive has overall accountability for this policy. Managing Directors are responsible for the implementation of this policy within the respective business divisions.
