

GI Framework Briefing

Catherine McGrath - Angus Higgins - Angus Wheeler

Introductions

Ground Investigation Framework Board

Catherine McGrath - Framework Manager

Angus Higgins - Commercial Lead

Angus Wheeler - Technical Lead

Introduction

Why a framework?

- To secure resource in a competitive market
- Achieve buying gains
- Avoid fee on fee
- Establish a direct link with tier2 suppliers to drive efficiencies and innovation.

GI Framework:

- Simple to use
- GI contractors do GI work
- HE always the client
- Managed & speced by the supply chain
- Standard rate card per supplier
- ECI work allowed for

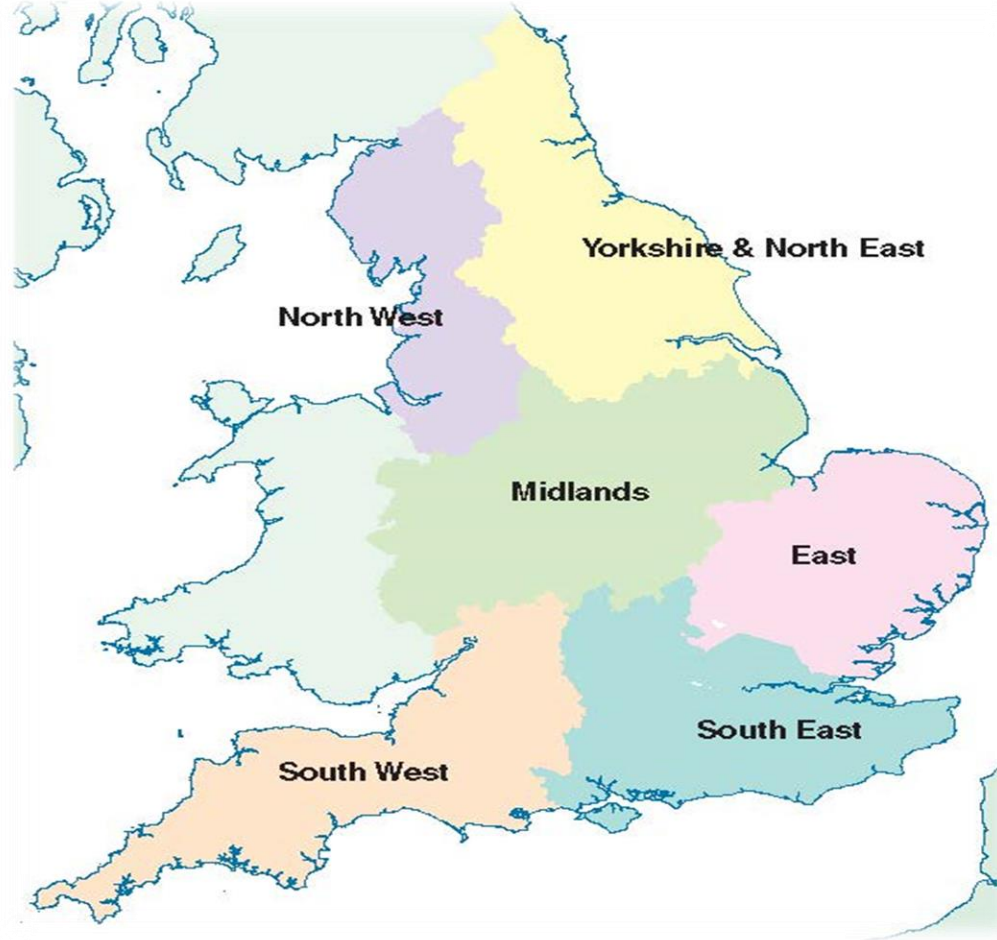

Lot Structure:

National (Lot Number 1)

North (Lot Number 2)
(North West, Yorkshire & North East)

**Midlands and East
(Lot Number 3)**

**South (West and East)
(Lot Number 4)**

Lots Awarded

Lot 1 National Lot

- RSK Environmental
- Soil Engineering Geoservices Ltd
- **Fugro**

Lot 2 North

- Strata Geotechnical (Part of Van Elle Ltd)
- RSK Environmental
- Soil Engineering Geoservices Ltd

Lot 3 Midlands

- Strata Geotechnical (Part of Van Elle Ltd)
- WYG Environmental Planning Transport Ltd
- RPS Consulting Services Ltd

Lot 4 South

- RPS Consulting Services Ltd
- Arcadis (UK) Ltd.
- BAM Ritchies

Allocation

Regional Lots (Lots 2-4)

Year 1:

- Allocation on a rotational basis.
- Supplier who receives the highest tender score on the Regional Lot will receive the earliest work order.

Year 2*:

- Value Allocation using a forward programme of work.
- The Supplier who had the highest tender score on the Regional Lot will be allocated the highest value Work Order

Years 3 & 4*:

- Allocation of Work Orders according to value will be on a combination of performance scores and tender scores to rank suppliers

* Providing a forward programme of work is available.

Secondary Competition

Will be used where:-

- No forward programme of works is available

Or:-

- When other contracting bodies (not HE) are awarding a Work Order.
