RDP Achievements & Future Plans

Procurement Director – National Highways

Health & Safety Moment

Modern Methods of Construction

- Key theme for National Highways and the industry as a whole
- Why Modern Methods of Construction? – more productive, cheaper, reduce waste and carbon, better programme certainty, better experience for the customer and **safer**
- Reduce workforce hours undertaking high risk activities
- What is MMC? Covers a wide range of techniques

Health & Safety Moment

Modern Methods of Construction

COSTAIN

Challenging traditional methods

Brokk Robotic Breakers

- MMC Category 7 – Site process led improvements
- Deep drainage installation – attenuation tank
- 3.5m depth of rock to be removed @ ~7.0m BGL (6.5m wide x 75m long)
- Brokks offer 5x the power of same sized excavator

OFFICIAL

Health & Safety Moment

Modern Methods of Construction

Challenging traditional methods

Brokk Robotic Breakers

- Removed operatives from working area reducing confined space working
 - Reduced exposure to dust, noise and fumes
 - Reduced access and egress risk and harness working
 - Reduced carbon footprint through use of electric plant
-
- Written into company policy
