

What is your expectation from today's workshop?

9 responses

Have insights and recommendations on how to embed social value into procurement practices/process

How to strengthen the implementation of social values in projects

To understand how to properly integrate social value into our procurement to get the most value

understanding of how the supply chain can be supported to maximise SV creation and how they can support our ambitions

Not sure

understand the role and the purpose of it in the supply chain collaboration

Improved knowledge about how to implement and manage social values within our supply chain and what I need to see from our suppliers.

I expect to have a full understanding of social value and the methods of embedding this actively into a workplace and procedures

Improved understanding of social value in respect of Procurement

Where is your organisation at in terms of understanding Social Value

What are the first three words that come to mind when you think of Social Value?

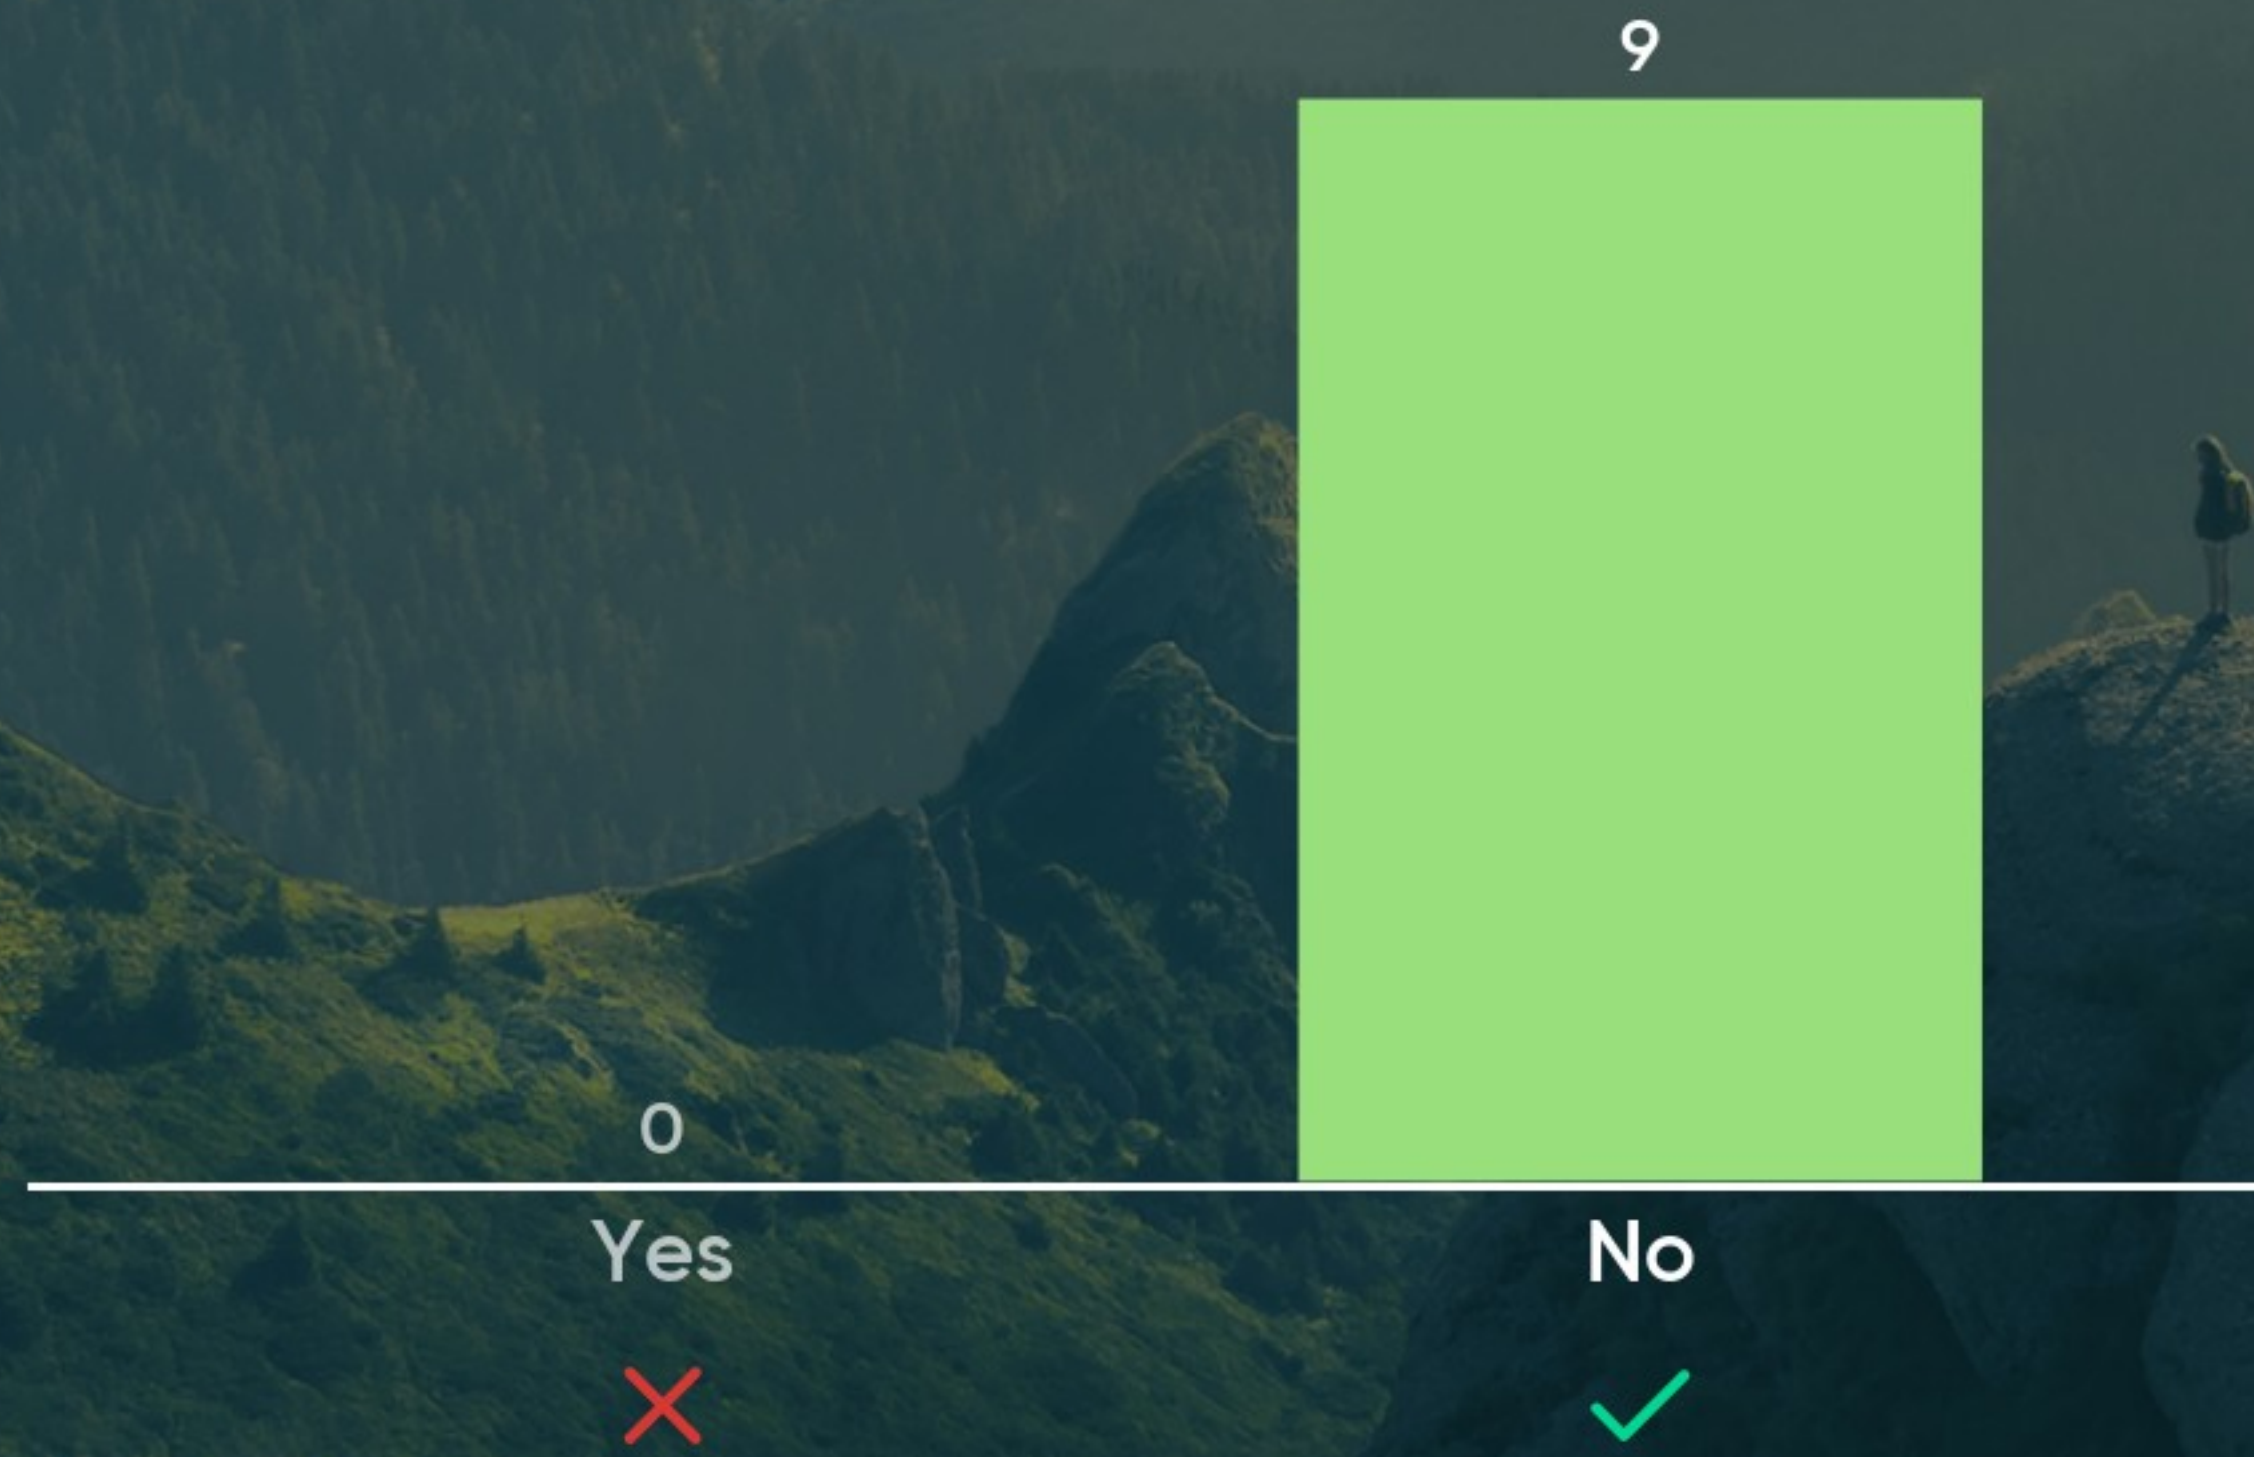

32 responses

What are the terms your organisation uses to define positive impact?

Is there a legal definition for Social Value?

Rank the top 3 reasons as to why your organisation is interested in Social Value?

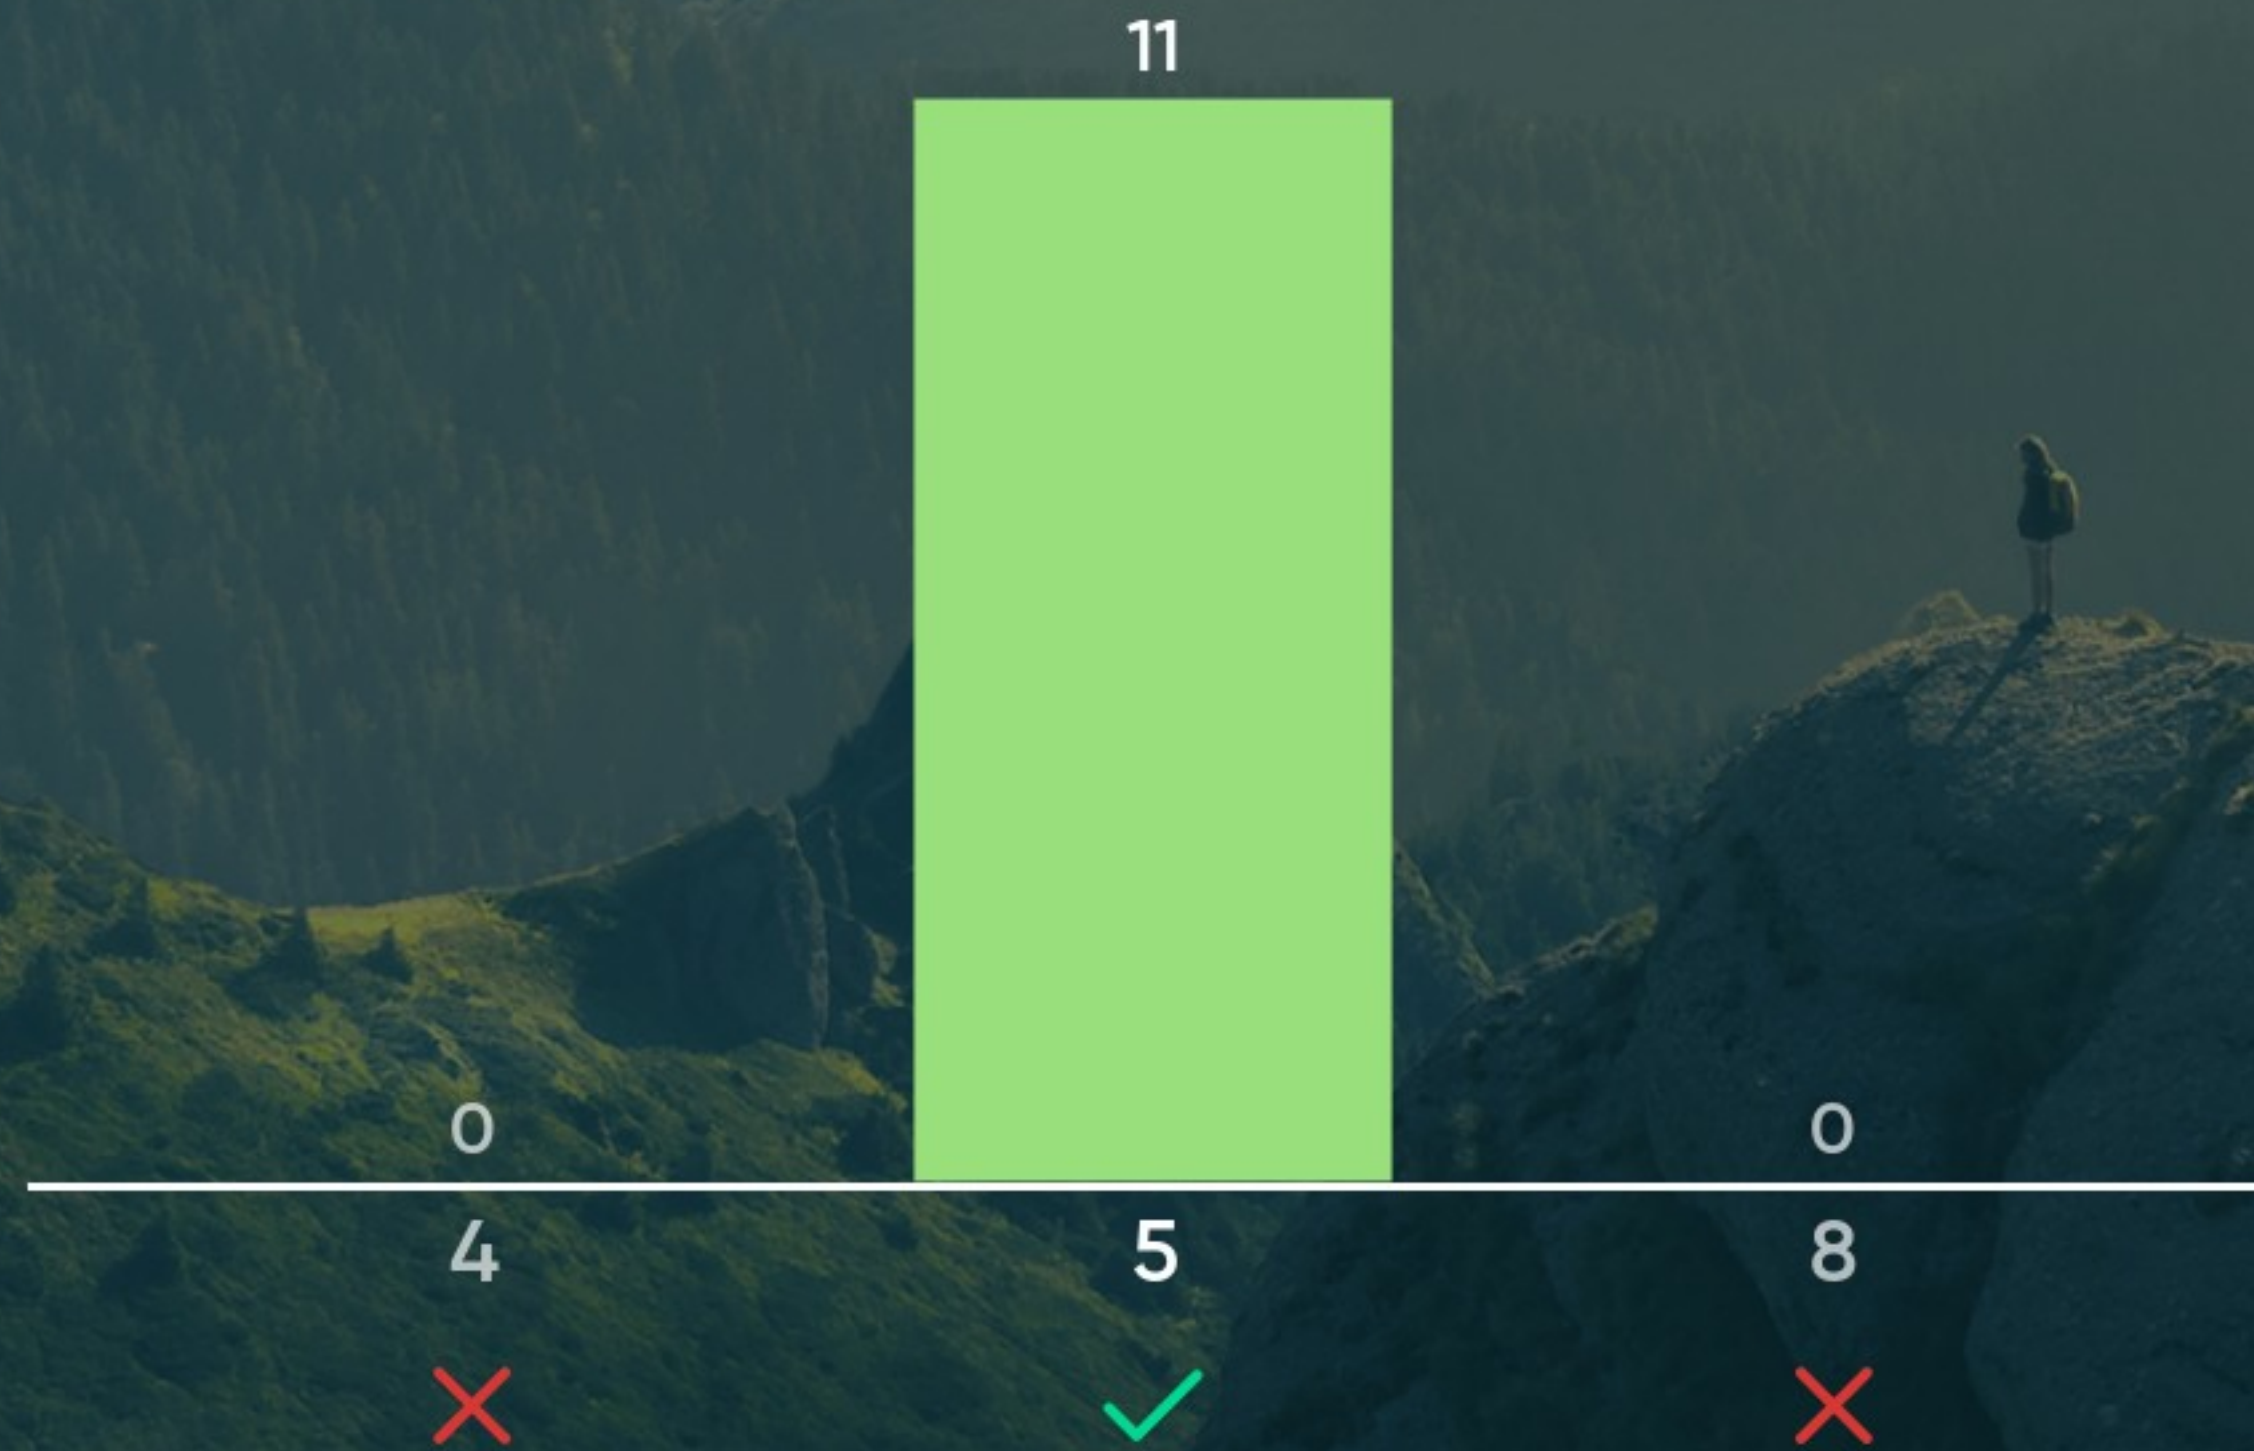

Thanks!

Thank YOU!

How many themes are there in PPN 06/20 ?

Social Value is all about doing what is right OR is it more about doing more and bringing additional benefits to what we are doing?

Option 1

Option 2

How to define Social Value for a project?

By understanding what is Social Value for you

By asking your client what they mean by Social Value

By understanding the needs of local community

All of the above

What does 'local' mean in the context of Social Value?

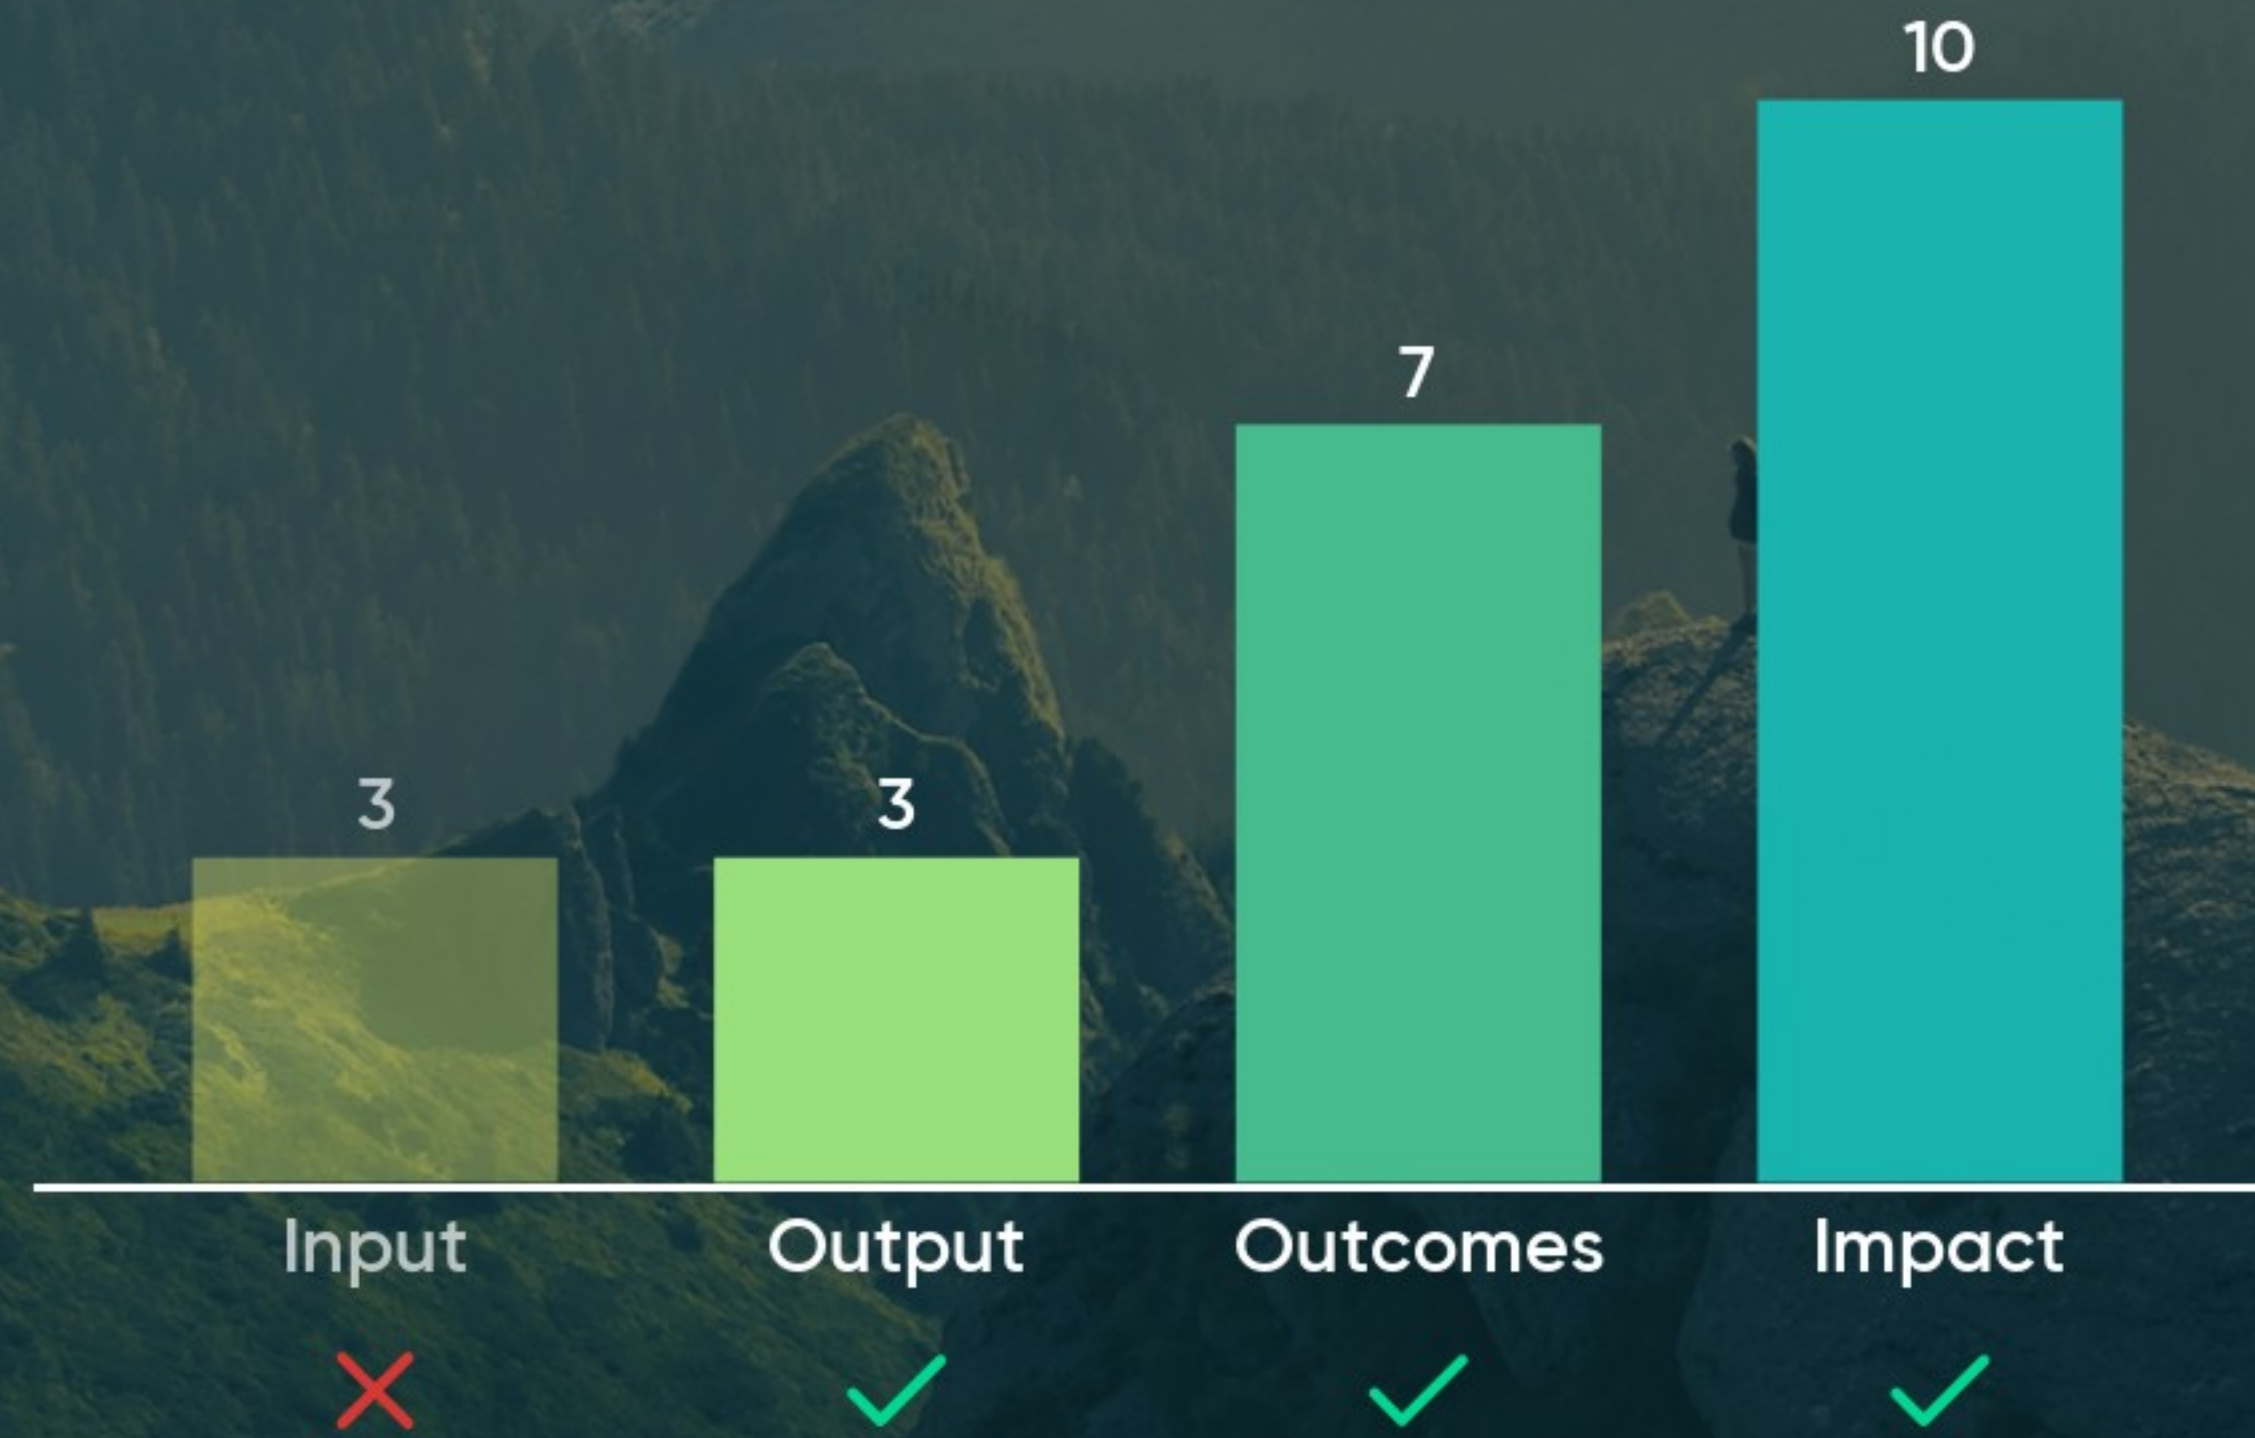

Thanks!

Thank YOU!

What do you usually measure in Social Value

What support you require to implement Social Value in your organisation/projects?

What is the key takeaway/s from today's workshop?

9 responses

to align priority areas with what we can best deliver based on our industry

Look at impact and what we have got out of social value. Communicate this to add value and buy in

Greater attention to understanding Client requirements with Social Value and asking the question if not obvious.

Emphasise reporting and keeping track of all impact efforts

new ideas, but also a realization that large part of it we already doing

I now understand the importance of inclusion of social value in a company. It has changed the way I will approach documenting our events to ensure that we are creating impact with bids and community

Respect, trust, equality with no discrimination, help and gratitude

cohesive and securely intertwined planning

Prioritise what is important for our organisation and how this impacts the typical locations we regularly work in.
