

SUPPLY CHAIN SUSTAINABILITY

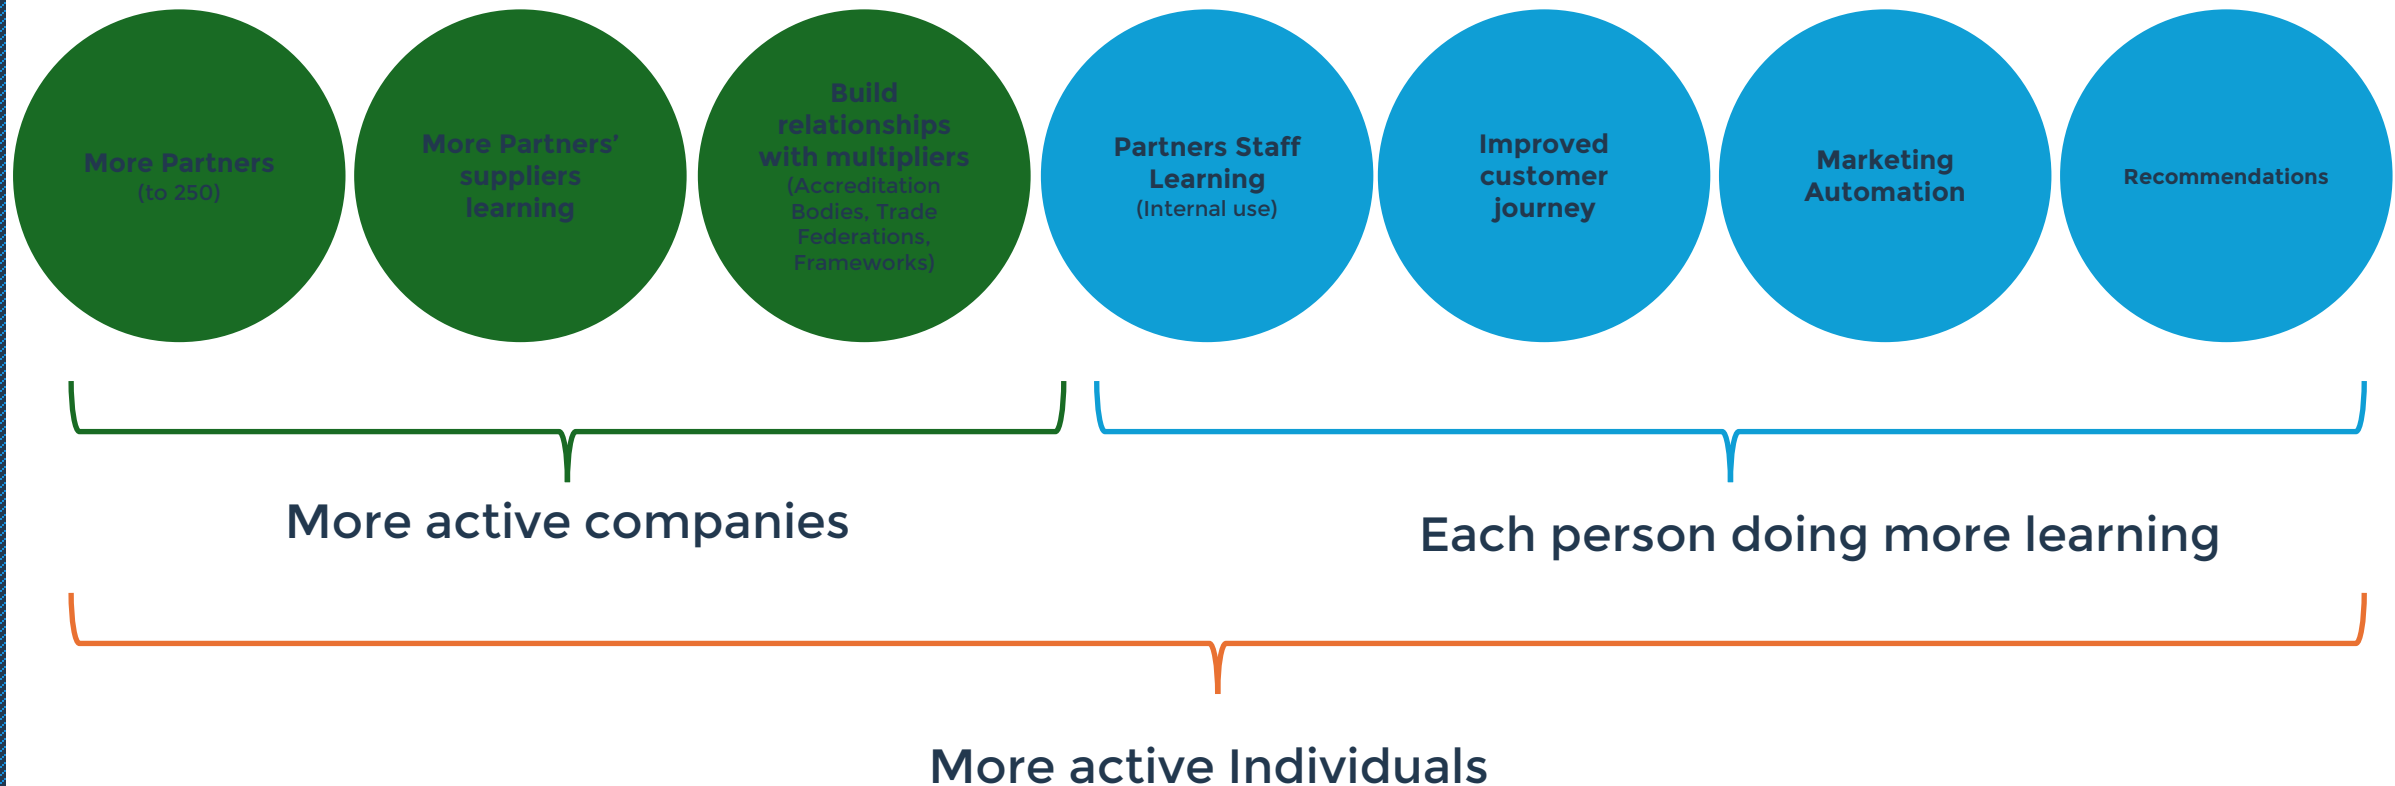

Construction Leadership Group

Priorities 2024/25

FOCUS ON

THE HOW . . . 7 ACTIONS TO DRIVE OUR IMPACT

FOCUS 2025

To consolidate learning on essential subject matter for all levels of worker in the construction sector

- **Create a scope-busting template**

- Design a scope busting template that organisations can adapt and fill out with real-life, clear examples from within their own organisation and supply chain
- An accessible and direct tool to allow members and Partners to bring their supply chains and internal teams up to a base level of understanding of what scopes mean to them, with mapping to School resources
- Climate Action Group will assist with this - they are running a series of “Intro To...” Lunch & Learns that will lead on nicely

- **Drive Supply Chain Engagement**

- Run Tutorial on uploading your Priority Suppliers
- Show and Tell delivered by Partner who has already uploaded their list, incl. challenges, benefits.

- **Collaboration with other priority Leadership Groups**

- Maintain connection with what the other groups in the School are doing
- The School team will be optimising the use of the Partner News page to communicate updates and activities from each group
- Construction Partners can check in at their own convenience to ascertain progress with projects and any opportunities to collaborate
- At LG meetings, we will continue to invite representatives from priority groups to provide updates
 - Starting with Procurement, Future Workforce, Modern Slavery & Nature Recovery

HOW DOES THE ACTIVITY SUPPORT THE 50K STRATEGY?

HOW ARE WE GOING TO GET 43% MORE LEARNERS?

<i>Activity</i>	<i>Why is this needed?</i>	<i>Who is the audience?</i>	<i>How does this benefit the sector?</i>	<i>How does this help to get people learning through the School?</i>	<i>Who can we collaborate with? (other membership organisations; trade federations etc)</i>
Scope-busting template	Making scope definition relevant to specific target audiences	Defined by the author	The concept of scopes needs more real-life examples and context for those that are not experts - understanding scopes is key to reducing footprints	The template will be hosted on the School LMS resource library so the template will be downloaded from there, and there will be linkage to other School resources	CAG
Tutorial on Priority Suppliers	Helping Partners galvanise their efforts in engaging suppliers	Partners	The more Partners that upload their lists, the more suppliers can be invited to join the School to upskill	Partners invite suppliers to join, plus Partners can report on supplier engagement and target accordingly	
<i>Legislation Explainer</i>	<i>Inform audience how to prepare for upcoming legs + regs</i>	<i>Construction sector Partners and supply chain</i>	<i>Failing to prepare is preparing to fail!</i>	<i>Will be hosted on the School and map to School resources</i>	

KEY PERFORMANCE INDICATORS 2024/25

Deliverables Target	Q1	Q2	Q3	Q4	Total
Active companies (currently at 3,859 - mid Feb)	1,250	1,250	1,250	1,250	5,000
Active individuals (currently at 12,382 - mid Feb)	4,000	4,000	4,000	4,000	16,000
No. of Partner uploaded priority supplier lists (10 - mid Feb)	3	3	3	3	12
Collaboration	1	1	1	1	4
