Focus 2025-6

To demonstrate how adopting digital technology in construction can bring value, but also to look at the importance of structuring data

The topics the Digital Leadership Group will address are:

- Communicating the business benefits of digitalisation

  - The existing eLearning module will be supplemented by case studies from the Leadership Group members

- The ESG benefits of smart buildings

  - the Financial and non-financial benefits of buildings made 'smart' by technology

    - Webinar case studies by partners (e.g. Savills, Canary Wharf
    - Webinar case studies by tech providers

- Digital Design Tools

  - Demonstrating how digital design can reduce waste and achieve better-performing buildings

    - Webinar contributions from LG members

- Digital Adoption / Managing Digital Information

  - Considering ISO standards and Electronic Data Management Systems (EDMS)

    - Webinar contributions from Digital LG and potential contributions from FM LG
