

Key Outcomes & Decisions:

22 September 2026 Meeting

Topic	Key Takeaway
Chair Succession	Keith O'Flynn, Sisk, is stepping down as Chair after two years; nominations are open for a new Chair and, following some other group's model eg Scotland, a Vice Chair.
Sustainable Design & Procurement Pathway	Rachael Riley (RSK's) presented on the process and potential content for a new landed well; a small working group will build a learning pathway on early design/procurement decisions covering PAS 2080, embodied carbon, ISO 14001 and BREEAM.
Circular Economy Roadmap	Mark Turner (School Waste Recovery Group) sense-check of the Circular Road Map for Construction found little beyond digital waste tracking ; the group agreed not to wait for the delayed Growth Plan and to focus on embedding existing good practice now.
Case Studies & Group Review	Partners to submit practical circular economy case studies with measurable outcomes; the Leadership Group review questionnaire will be recirculated to shape future priorities.
School App: Trade Learning Journeys	Robyn Conway (School) is building trade-based learning journeys (11 trades shortlisted so far) for site workers; a steering group will be convened to refine content and trade coverage.
Upcoming Sessions	Digital Waste Tracking webinar (23 Sept, with Defra), Net Zero Skills Roadshows (November, Scotland) and Designing Out Waste sessions flagged for members as key interest areas.

Key Decisions

- Circulate the Chair/Vice Chair application/nomination form; interested partners are welcome to contact Loraine directly if you would like any more detail.
- Form a small working group of volunteering partners to develop the Sustainable Design & Procurement learning pathway. Partners to respond by 2 October.
- Partners to submit circular economy case studies with measurable outcomes for the School's portfolio.
- Re-issue the Leadership Group review questionnaire to inform future group structure and priorities. Partners asked to respond by 2 October.
- Partners to email Robyn if you are interested in being involved in the new steering group which will develop content for the School App; partners to flag missing trades via the Miro board.
- Promote the Digital Waste Tracking webinar and Net Zero Skills Roadshows to members and their supply chains.
